

RACK CONVEYOR TYPE DISHWASHERS

RACK CONVEYOR RC 150

This compact multi-speed Conveyor can wash up to 100 baskets/hour and is the ideal solution for small and medium-sized operations. Its compact dimensions, contained cost and extreme versatility can profitably substitute manual wash without increasing utilisation costs. A hood dishwasher can be used when experiencing an elevated daily or seasonal workload. The direction of the flow of the machine can be inverted based on the kitchen layout.

TECHNICAL SPECIFICATIONS	RC 150
Total length (mm)	1150
Productivity (Racks/hr)	50-100
Water consumption (l/hr)	200
Electrical power supply (V/Hz/Ph)	400/50/3N
Maximum power absorption	
With 50 °C water feed (kW)	17.3
With 15 °C water feed (kW)	26.8
With 15 °C water feed (kW) and heat recovery system	21.8
Detergent dispenser	Standard
Rinse aid dispenser	Standard

Standard equipment—1 rack for plates, 1 rack for glasses, 1 insert for cutlery
