

ugolini

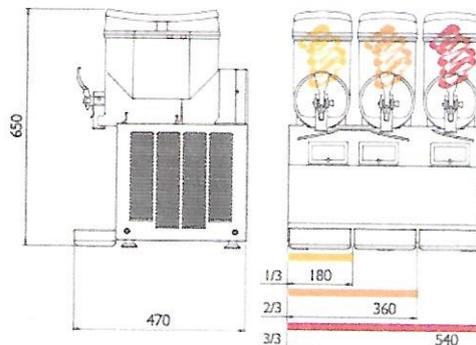

Granitori

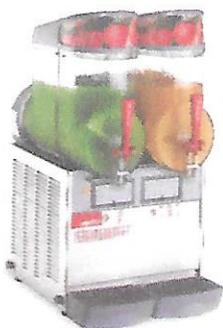

MT 1/2/3 MINI

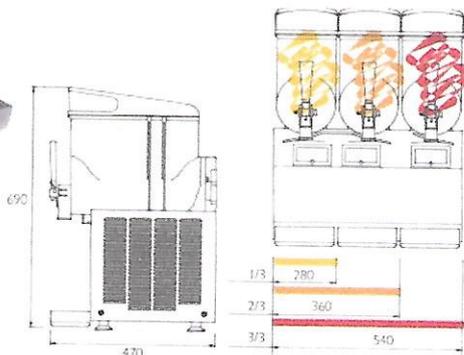

The world smallest Slush /Frozen Drink Dispenser, with patented magnetic drive. Built to the highest standards expected of Ugolini; with shock-proof polycarbonate 6 litres bowls and air-cooled condenser.

MT 1/2/3

Dispensers for slush and other frozen drinks. The most innovative, versatile, compact "Granitore", that totally displays the product, so as to catch your customer's eye. **Mixing system by patented magnetic transmission.** Shock-proof, non toxic polycarbonate container, with about 10 litres capacity. Hermetically sealed compressor. Air cooled condenser. Stainless steel body. Water-cooled condenser also available on request in the versions with 2 and 3 containers.

Giant 2

The new "Giant 2" frozen slush dispenser has been especially designed to prepare large volumes of slush and frozen drinks in a short period of time. Configured with two 15 litres capacity bowls and two 1/2 HP compressors it will satisfy your customer's demands. The fully visible bowl and the 360° wrap-around graphics help to merchandise the product resulting in additional sales. **Mixing system by patented magnetic transmission.** Shock-proof non toxic polycarbonate container, with about 15 litres capacity each. Stainless steel body. Two independent hermetically sealed compressors.
